## The City of Glen Cove New York Private Sewer Lateral Repair Program

### December 20, 2024

The City of Glen Cove New York is offering a Private Sewer Lateral Repair Program to help homeowners maintain and repair their sewer laterals, which are pipes connecting home plumbing to the main sewer line. The program, managed by Pipelogix LMS Inc., costs \$15.50 per month or \$186 /year and covers inspections, repairs, and replacements with no additional charges. Homeowners are automatically enrolled unless they opt out.

The program fees will appear as a “Sewer Lateral Program” line item on the 1<sup>ST</sup> Half Glen Cove City real estate tax bill.

The program aims to prevent sewer backups and environmental contamination caused by broken laterals. It includes 24/7 repair services and uses trenchless repair methods to minimize property disturbance. The initiative also addresses the environmental impact of broken sewer laterals, which can lead to beach closures and pollution.

There is an annual enrollment period, October 1st —November 1st, in which residents are given the opportunity to join or opt-out of the program. <https://glencoveny.gov/sewer-lateral-program> See link for more information.
